Suspension: Front Independent MacPherson Strut with Rear Multi Link Independent Setup

Brakes: Front Discs & Rear Drums

Colour: Black

Registration History: NZ New / First Registered 23 October 2024

Mileage: 21212 Kms

Vehicle Overview

The 2024 Volkswagen ID.5 Pro 2WD is Volkswagen's coupe-styled electric SUV built on the MEB platform, sharing architecture with the ID.4 and related VW Group EVs. The Pro 2WD variant combines a 150-kW rear-drive motor with a 77-kWh battery, delivering around 530 km WLTP range, quiet operation, and composed handling. The cabin features updated 12.9-inch infotainment, wireless phone integration, and high-quality materials. Despite the sloping roofline, the ID.5 retains practical boot space and comfortable seating. Safety equipment is comprehensive, including adaptive cruise, lane keeping, junction assist, and a 5-star ANCAP rating. Charging capability (11 kW AC / 125 kW DC) supports both daily use and longer trips.

Condition Assessment

The subject vehicle presents in excellent overall condition with regular servicing and no reported mechanical or electrical issues.

Noted cosmetic items:

- Minor scuffs on the right front wheel
- Very small paint chip / supermarket-type dent on the right front door

Interior condition is very good, consistent with the odometer reading. Overall, the vehicle is assessed as high-grade for age and mileage.

New Zealand Market Analysis (August 2026)

- **2024 ID.5 Pro 2WD**, 17,500 km – **\$54,990** (asking)
- **2024 ID.5 Pro 2WD**, 37,000 km – **\$45,500** (asking)
- **2023 ID.5 Pro 2WD**, 41,482 km – **\$45,995** (asking)

These comparables clearly show that:

- The Pro 2WD variant sits in the mid-\$40k to mid-\$50k band in the current NZ market.
- Lower-km, later-year examples (like the 2024 / 17,500 km unit) are at the top of the range around \$55k asking, with realistic transaction values likely a few thousand below.
- Higher-km and older units (2023 / 40k+ km) cluster around \$45–46k asking.

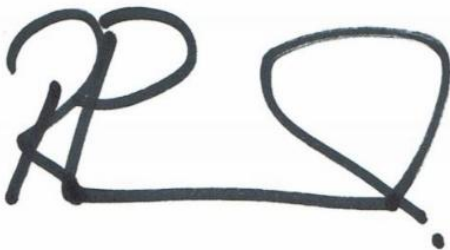

Market Conditions

- EV resale values have softened since the removal of the Clean Car Discount, but long-range European EVs still retain reasonable demand.
- The ID.5 Pro 2WD competes with Tesla Model Y RWD, Hyundai Ioniq 5 RWD, Kia EV6 Air, and Skoda Enyaq 80.

Valuation conclusion

Based on current market conditions, comparable listings, and the vehicle's condition, the **current market value** of the **2024 Volkswagen ID.5 Pro 2WD** – is assessed at:

\$48,990 NZD (GST Inclusive) as at 17 August 2026
